## JOHN F. KENNEDY PRIMARY AND PRESCHOOL

# Maternal Nursery

The first years of life are fundamental in the development of the individual's personality and abilities. Initial education plays a very important role in subsequent learning, as it provides formative experiences in the intellectual, affective, social, physical and emotional level. What we seek in Nursery is to guarantee and promote the child's integral attention through specific activities in order to stimulate it and discover its environment.

Our focus is to develop:

- The motor area.
- The cognitive area.
- The socio-emotional area.
- Acquisition and development of language.
- Stimulate interest for reading.
